RE: Carseland Water Reservoir Repairs

Construction Period –Summer/Fall 2021

The water reservoir in Carseland is over 50 years old and due to its age, has been showing signs of leaking. To prolong the longevity of the system, several repairs are required.

Schedule

Exterior work will start in Late-July and crews will be working until Late-August to complete the work. Interior repairs are currently scheduled to run from Mid-September to Late-September.

The Carseland Water Reservoir Repairs will include:

1. Patch/repair exterior cracks
2. Re-finish exterior
3. Seal interior construction joints
4. Clean outlet pipe

Traffic Detours

We do not anticipate any impacts to traffic for this work.

Construction Updates

Once construction commences, weekly updates will be posted on the County website: www.wheatlandcounty.ca

Questions/Concerns
